

DOUBLE MAJOR POLICY

- A **double major** is a program of study that meets the requirements of two distinct **majors** in a **single** Bachelor's degree (Bachelor of Arts, Bachelor of Science, Bachelor of Social Work, and Bachelor of Science in Nursing).
- The program of study consists of courses required to meet the degree requirements for each of the two majors, together with the courses needed to meet the general education requirements for the degree.
- The minimum number of credit hours required for a double major equals the total number of credit hours required for the major comprising the larger number of credit hours for the degree.
- *For example:* A BS in Applied Mathematics may require 120 credits to complete the degree. A BS in Applied Exercise Science may require 122 credits to complete the degree. A student double majoring in Applied Exercise Science and Applied Mathematics would be required to complete a minimum of 122 credit hours for the degree.
- Students who complete the requirements for a **double major** receive a single diploma that acknowledges both majors. *For example:* Bachelor of Science in Applied Exercise Science with a second major in Applied Mathematics.

SECTION I: STUDENT ACKNOWLEDGEMENT

I understand the implications of this change and agree to fulfill all the requirements of the double major as published in the University of New England Undergraduate Catalog. Double major authorization requires review and approval by the Academic/Program Directors of both majors. I understand the degree cannot be awarded until requirements of both majors have been successfully completed. This form will become part of the student's permanent record.
